MCQs with Answer Key

One copy-and-paste prompt that turns any chapter into a clean set of multiple-choice questions - with four options each and the answer key kept separate at the end, so you test yourself first and check later.

Free student notes - Study & Summarising set

What this note is: a single shortcut, on its own, so you can save it, print it and use it in seconds. Copy the prompt on page 2 into ChatGPT, Claude, Gemini, Muse or any other AI chat, paste your chapter text, and your practice MCQs are ready.

The copy-and-paste prompt

MCQs with Answer Key Works in: ChatGPT - Claude - Gemini - Muse

> Turn the text below into [NUMBER] multiple-choice questions for [CLASS / EXAM LEVEL]. Follow these rules strictly:
> 1. Write each question clearly, with exactly 4 options labelled A, B, C and D. Only ONE option is correct.
> 2. Make the 3 wrong options believable - use common student mistakes, close-but-wrong facts, and mixed-up terms. Do not make silly or obvious wrong options.
> 3. Cover the whole text: mix easy recall questions, understanding questions, and 2-3 application questions where I must use the idea, not just repeat it.
> 4. Do NOT mark the correct answer inside the questions.
> 5. At the very end, under the heading ANSWER KEY, list only: question number - correct letter - one short line explaining why it is correct.
> 6. Keep the language simple and at my class level. If a word is difficult, use the simpler word.
> Here is my text:
> [PASTE YOUR CHAPTER TEXT HERE]

Fill the brackets: replace [NUMBER] with how many questions you want, for example 10 or 20, and [CLASS / EXAM LEVEL] with your class, for example "Class 8" or "Matric". Then paste your chapter, notes or textbook page in place of the last line.

How to use it in 5 steps

1. **Copy the prompt** and fill in the number of questions and your class level.
2. **Paste your text** - one chapter, one lesson, or your own notes. Shorter text gives sharper questions.
3. **Attempt first, key later.** Write your answers on paper without scrolling to the answer key.
4. **Check with the key.** For every wrong answer, read the one-line reason, then re-read that part of your book.
5. **Ask for more.** Type "Make 10 more, harder" and the AI continues in the same format.

> **Why the key stays at the end:** if the correct option is marked inside the question, you only recognise it - you never test your memory. Keeping the key separate turns reading into real practice, and the short reason with each answer teaches you why, not just which letter.

What it looks like in practice

Topic: photosynthesis, Class 8. This is the format you will get:

Q1. Which gas do green plants take in from the air for photosynthesis?
A) Oxygen B) Carbon dioxide C) Nitrogen D) Hydrogen

Q2. A plant is kept in a dark room for two days. What will happen to its food-making?
A) It will increase B) It will stay the same C) It will stop, because light is needed D) It will use oxygen instead

ANSWER KEY
1 - B - Plants take in carbon dioxide and use it with water and sunlight to make food.
2 - C - Photosynthesis needs light, so without light the plant cannot make food.

Change the number, level or style

Adjust one part of the prompt - you do not need a new prompt:

Change this	What you get
Change [NUMBER] to 5, 10, 20 or 30	A quick check (5), a full lesson test (10-20), or a chapter mock test (30).
Add: Make all questions board-exam style	Questions worded like real past papers for your board exam.
Add: Add one line under each wrong option in the key	The key also explains why each wrong option is wrong - best for deep revision.
Add: Write questions in Urdu, keep science terms in English	Easier to understand if you think in Urdu but write exams in English.
Add: Make a second set with no answer key	A clean test sheet to print, share with a friend, or use in class.

Attempt before you check. Opening the answer key first turns a test into reading. Your score only helps you if every answer came from your own memory.

Check the AI too. An AI can occasionally set a wrong answer in its own key. If a key answer surprises you, check that point in your textbook before accepting it - your book is the final authority for your exam.
