Free student notes - Exam Prep set

What this note is: a single shortcut, on its own, so you can save it, print it and use it in seconds. Copy the prompt on page 2 into ChatGPT, Claude, Gemini, Muse or any other AI chat, add your topic and class, and you get a full test - not just a few questions. Page 3 gives you the second prompt that marks your answers.

The copy-and-paste prompt

Practice Test Maker Works in: ChatGPT - Claude - Gemini - Muse

> Make a complete practice test on [TOPIC] for [CLASS / EXAM LEVEL]. Follow these rules strictly:
> 1. Start with a test header: topic, total marks, and time allowed.
> 2. Section A: 10 multiple choice questions (1 mark each). Give 4 options for every question.
> 3. Section B: 5 short-answer questions (3 marks each).
> 4. Section C: 2 long-answer questions (5 marks each) - I must explain or give reasons, not just write one line.
> 5. Total: 35 marks. Time allowed: 45 minutes.
> 6. Mix the difficulty: about 3 easy, 9 medium and 5 hard questions across the whole test.
> 7. Do NOT write any answer inside the test. Put all answers in a separate ANSWER KEY at the very end, after a clear line that says ANSWER KEY - DO NOT LOOK BEFORE YOU FINISH.
> 8. In the answer key, add one short line of explanation for every answer.
> Use simple, clear exam-style wording. Make the test now.

Fill the brackets: replace [TOPIC] with your subject and chapter, for example "fractions" or "the water cycle", and [CLASS / EXAM LEVEL] with your class, for example "Class 6" or "Matric".

How to take the test properly

1. **Hide the answer key first.** Copy only the test part - or print it and fold the last page over. Do not scroll to the key.
2. **Set a timer for 45 minutes.** Put your book and notes away. Sit as you would in the exam hall.
3. **Answer on paper, in order.** If a question is hard, mark it, move on, and come back if time is left - just like a real exam.
4. **Stop when the timer stops.** Unfinished questions stay unfinished. That gap is useful information, not a failure.
5. **Mark honestly with the key** - or use the marking prompt on page 3. Write your score at the top: for example, 27 / 35.
6. **Revise only what you lost marks on, then take a fresh test.** Ask for a new test on the same topic - never retake the same questions you have just seen the answers to.

> **How this is different from Quiz Me Mode:** a quiz asks you one question at a time and teaches as it goes. A practice test gives you the whole paper at once, under time, with no help - it measures what you can really do in the exam, not what you can do with hints.

What a test looks like

Topic: fractions, Class 6 - the key stays at the end:

Header: Practice Test - Fractions - Class 6 - Total marks: 35 - Time: 45 minutes

Section A, Q1: Which fraction is equal to 1/2? A) 2/5 B) 3/6 C) 4/7 D) 5/9

Section B, Q1: Ali has 3/4 of a pizza and gives 1/4 to his sister. How much pizza is left? Show your working. (3 marks)

Section C, Q1: Explain with one example why 2/3 is bigger than 3/5. (5 marks)

Answer key (end): A1: B - 3/6 simplifies to 1/2. B1: 1/2 pizza left.

The marking prompt - check your answers

Mark My Test Use after you finish

> Here are my answers to the practice test you just made. Mark them strictly using your answer key. Give me: 1) my score per section and total out of 35, 2) every wrong answer with the correct answer and a simple explanation, 3) my 3 weakest points, and 4) one small revision task for each. My answers are: [PASTE YOUR ANSWERS HERE]

Tip: type answers exactly as written on paper - mistakes included. Honest marking starts with honest answers.

Change the test to fit your exam

Add this line	What changes
Make it in my board exam style and wording.	Questions look and read like your real board paper.
Make a short 15-minute test: 10 MCQs only, 10 marks.	A quick daily check when you have little time.
Make a second, different test on the same topic - no repeated questions.	A fresh retake after you have revised your weak points.

Use it honestly. A practice score only means something if the test was closed-book and timed. Opening the key early gives you a score that lies to you.

Check the AI too. AI tests can contain a wrong question or key answer. If something looks incorrect, check your textbook - your book is the final authority.
