What this note is: a single shortcut, on its own, so you can save it, print it and use it in seconds. Copy the prompt on page 2 into ChatGPT, Claude, Gemini, Muse or any other AI chat, fill in your school facts, and your notice is drafted. Always check every date, day and time yourself before the notice goes on the board or to parents.

The copy-and-paste prompt

School Notice Writer Works in: ChatGPT - Claude - Gemini - Muse

> Write a formal school notice for [SCHOOL NAME]. Follow these rules strictly:
> Topic: [WHAT THE NOTICE IS ABOUT, e.g. winter holidays / monthly test / parent meeting]
> For whom: [WHO MUST READ IT, e.g. all students / parents of Class 1 to 5 / all staff]
> Key facts: [DATE(S), DAY, TIME, PLACE and any other true detail - write every fact here]
> 1. Start with the school name, then the word NOTICE (or CIRCULAR) and today's date: [TODAY'S DATE].
> 2. Give a short, clear heading for the topic.
> 3. Write the body in 3 short parts: what is happening, when and where it is happening, and what the reader must do.
> 4. Use simple, polite and formal English that parents with basic English can understand.
> 5. Do NOT invent any date, time, fee, name or rule that I have not written above. If a fact is missing, write [CHECK] in its place.
> 6. End with: Head Teacher, [SCHOOL NAME].
> 7. Keep the full notice under 120 words, not counting the heading and signature.

Fill every bracket: the AI can only use the facts you give it. If you leave the date or time empty, it may guess one - and a guessed date on a real notice creates confusion for the whole school.

The five parts every notice needs

Before you print or forward any notice, check these five parts. A missing part is the most common reason a notice fails.

Part	What to check
School name and heading	School name at the top, then NOTICE or CIRCULAR and a one-line topic heading.
Date of the notice	The date the notice is issued - not the date of the event.
What, when and where	The event, its date and day together, the time, and the place.
What the reader must do	One clear action: attend, send, bring, pay before a date, or note the holiday.
Signature	Head Teacher (or the authorised teacher) with the school name below.

Notice or circular - what is the difference? A **notice** is displayed on the notice board for everyone to read. A **circular** is sent around - to classes, staff or parents - and often needs a signature or reply back. The writing is the same; only the delivery changes. Tell the AI which one you need.

Six notices this one prompt can write

Change only the topic and key facts. Everything else in the prompt stays the same.

Notice type	Write this as the topic	Facts you must give
Holiday notice	School closed for holidays	First and last holiday date, reopening date and day.
Exam / test notice	Monthly test / term exam schedule	Classes, start date, daily timing, what to bring.
Parent meeting (PTM)	Parent-teacher meeting	Date, day, start and end time, classes invited.
Admission notice	New admissions open	Classes, dates, documents required, office timing.
Event / function	Sports day, annual day, cleanliness drive	Date, time, place, dress or items to bring.
Result day	Result announcement and report cards	Result date and time, who collects the card.

Worked example - a holiday notice

Facts given in the prompt: school closed for a break, reopening on the date written below. This is the shape of output you should get:

[Your School Name]
NOTICE

School Closed for Holidays

All students and parents are informed that the school will remain closed from [first date] to [last date] on account of holidays. Regular classes will start again on [reopening date, with day]. Students are advised to complete their holiday homework and bring it on the first day after the holidays.

Head Teacher
[Your School Name]

Read the example carefully: every date is still in brackets. In a real notice you replace them with your true dates - and then you check that the day name matches the date on a calendar. That one check prevents the most common notice mistake.

Urdu, WhatsApp and board versions

Once the English notice is correct, add one of these lines under the main prompt to get a second version from the same facts:

Add this line	What you get
Also give the same notice in simple Urdu.	An Urdu version for parents who do not read English. Check names and dates again - numbers can change in translation.
Also write a short WhatsApp version in 4 to 5 lines.	A brief message for the parents group: topic, date, time and action only.
Make a large-print version for the notice board.	Short lines and a bigger heading, easy to read from a distance.
Make the language even simpler for primary parents.	Shorter sentences and everyday words, with no difficult formal phrases.
Write it as a circular and add a reply slip at the end.	A tear-off slip: student name, class, parent signature - for meetings and trips.

Check before you display or send

1. **Match every day with its date** on a real calendar. This is the error parents notice first.
2. **Read every number aloud:** dates, times, class numbers and any amount of money.
3. **Check every name:** school name, teacher name and place - spelling must be exactly right.
4. **Remove every [CHECK] marker.** It means the AI did not have that fact. Fill it yourself or delete the line.
5. **Get approval where your school requires it** before a circular goes to parents or another office.

Use it honestly and safely. Only announce what the school has actually decided. Never use AI to write a notice for a holiday, fee change, exam or closure that has not been approved - a false notice harms students, parents and the school's trust.

Keep private details out. A public notice should never carry a student's personal marks, a family's private matter, phone numbers or ID numbers. Put only what every reader is allowed to see.
